

Kevin Matthams
Account Manager

Kev joined DeepStore over 17 years ago originally as Underground Operations Manager. He now manages a list of clients across many industry sectors and is also responsible in attracting new customers into DeepStore. Kev also works closely with the operational team when customers are undertaking audits, visits and projects.

Outside of work, he has a huge interest in sport especially cricket and golf, where he currently plays off a handicap of 15 (although he wishes he was a few shots lower!). He is a very keen traveller and also follows Chelsea FC and Heybridge Swifts FC.
